Dear customer,

To make sure our products keep all of their characteristics and functions the storage conditions are very important. As well the original Donau Carbon GmbH packaging must not be damaged.

Storage conditions:

- Storing in closed packaging of Donau Carbon GmbH
- Storage room has to be dry and odorless
- Protection against rain and groundwater
- Protection against UV-Radiation
- Temperature has to be 0°C – 40°C
- No storage together with solvents or strong smelling products

You can get further information on the respective Safety Datasheet.

Best regards

**Christian Ries**

HSEQ Specialist
